The groom is a young hardware merchant of Corinth. The happy couple have been forgiven and will return to Mississippi on Tuesday.

Women's Organizations

The U. D. C. meeting will be held Tuesday afternoon at the Trinity Methodist church at 4 o'clock.

The first quarterly meeting of the Charity association will be held in the home, 405 S. Campbell street, on Monday, October 14.

The first meeting of the Woman's club was held Saturday afternoon at the home of Mrs. W. R. Brown, on Rio Grande street. There was a large attendance to greet the president, Mrs. A. P. Averill, who had just arrived that morning. As she was fatigued from her journey, Mrs. Brown consented to take charge of the meeting. The secretary read the minutes of the last meeting and the reports of the treasurer and the chairman of the club house committee were given.

Mrs. Brown announced that the club would hold its meetings at her home until the third or fourth week in November, when they would meet in the convention hall in the Hotel Paso del Norte.

Mrs. Francis L. Moore opened the musical program with a piano solo, Winslow's "Lullaby."

Mrs. E. Kohlberg then addressed the club with a most interesting and forceful account of the El-an-nial meeting of the Woman's club, which was held last June in San Francisco and to which Mrs. Kohlberg went as a delegate. From the Woman's club of this city, Mrs. Kohlberg spoke most feelingly of Mrs. Sarah Platt Decker, ex-president of the Federation and a warm personal friend of Mrs. Kohlberg's whose death occurred shortly after the bi-annual was over. Mrs. Kohlberg spoke also of the exciting competition between the two candidates for presidency, Mrs. Percy V. Pennybacker, of Texas, and Mrs. Philip Carpenter, of New York, and of the ultimate success by a large number of votes, of Mrs. Pennybacker. Mrs. Kohlberg was given the honor of inspector when the votes were cast.

The next number of the program was a violin solo by Miss Virginia Bean, accompanied by Mrs. Bean. Miss Bean responded graciously to an encore. Mrs. Parvin Witte, chairman of the musical program of the club, then gave an outline of the year's work in music. She said the first meeting, which is to be given next Wednesday, will be the under the direction of Miss Florence Comfort and will be of the El-an-nial style and the following meetings will continue through to the 14th and 15th centuries.

Mrs. Witte spoke of the opera which is to be given by the music department during the winter, under the direction of Mrs. J. J. Pearce. Mrs. A. P. Averill, the president of the club, then addressed the women, with an enthusiastic and pleasing talk on plans for the year. She spoke of how enthusiasm develops character, but of how character is tempered with judgment, and of her desire to see the club a fraternity with the idea of "to get to give and consequently to grow." Mrs. Averill announced her intention of being "at home" to all club members every Tuesday, beginning with the first Tuesday in November and of her desire to know all members of the club.

In the conclusion of her speech Mrs. Averill was presented with a beautiful bouquet of white roses, tied with the club colors. Mrs. Eleanor Porcher made a most gracious and charming presentation speech, which told of the desire of all club members to stand by their president and of the esteem in which she is held.

In the conclusion of Mrs. Averill's address, Mrs. Parvin Witte sang "Elsa's Dream," accompanied by Mrs. W. R. Brown.

Refreshments of ice and cake were served in the pergola under the vines and a reception was held under the direction of Mrs. A. W. Foster, chairman of the social committee, and several of her committee.

EXPLOSIVES IN GARBAGE CANS
MEASURE TO DISPOSAL PLANT

"People should be careful of what they put in their garbage," said Charles Le Baron, superintendent of the sewage disposal plant. "Often we receive sealed gasoline cans and other explosive material that may do great damage to the plant and may injure the men working there."

These cans are sometimes buried deep in a wagon load of garbage and other refuse and are not discovered until after they have been thrown into the furnaces. While there is no fluid in these sealed cans, yet the gas remains in them and can cause severe explosions.

"Sometimes cartridges are thrown in. Now, one or two cartridges would not do any damage unless they happened to explode upward while the covers are off the furnaces, but if several cartridges were thrown in at one time they might cause great damage."
